To Philip Dunne MP: House of Commons

The Petition of users of …….. Post Office,

Declares that plans to close 14 post offices in the Ludlow constituency, 9 of which are in the last remaining shop in the village, will affect many users of post office services, particularly vulnerable people with limited access to alternative branches and undermine sustainability of the local community. Withdrawal of the post office from the local shop will threaten the future of many remaining village shops, and introduction of a mobile van service for a few hours a week in 7 villages does nothing to reduce this threat to our communities.

We call on our MP to make our concerns known to the House of Commons so that the Government is made aware of the threat to our community from closure of the local post office and for this post office to be kept open.

Data Protection Act: By giving your information below you are prepared to receive further information or correspondence on this and other related public sector issues from Philip Dunne MP. Please contact him if you do not want your information used in this way.
